EDUCATION

Information Systems Engineering

National Technological University
(UTN) - FRBA

OBJECTIVE

I am currently seeking new opportunities where I can apply my experience, contribute to exciting projects, and continue learning.

I am enthusiastic about facing significant challenges and working with innovative technologies to boost my professional growth.

CERTIFICATES AND COURSES

- First Certificate in English. BAOC (Buenos Aires Open Centre), February 2018.
- Angular University - From Zero to Expert in Angular. Udemy, December 2021.
- UX Definitivo. Jonatan Ariste School, April 2021.
- HTML5 y CSS3. Jonatan Ariste School, April 2021.

LANGUAGES

English: Advanced

Spanish: Native

PROFILE

Professional with over 3 years of experience in Systems.

I am particularly drawn to front-end development, as I enjoy creating intuitive and visually appealing user interfaces. However, I also recognize the critical importance of back-end development in building robust and efficient applications, and I have experience working in both areas.

Known for my ability to approach challenges creatively and find innovative solutions.

Driven by a continuous pursuit of knowledge and challenges, I am committed to expanding my skills and exploring new technologies to stay updated in this dynamic field.
